## THE ROYAL OAK FOUNDATION

Americans in Alliance with the National Trust of England, Wales and Northern Ireland

In England's countryside estates and spa towns like **Cheltenham** and **Bath**, every detail—from a carved cornice to a garden path—was crafted to signal taste, status, and power. From **May 31 to June 9, 2026**, join the Museum Travel Alliance and the Royal Oak Foundation in the U.K. for exclusive access to historic homes, collections, gardens, and Roman baths. Go behind the scenes in lavish properties and gardens owned by **His Majesty King Charles III**, **Sir Winston Churchill**, the **Rothschilds**, and other fascinating historical figures.

We spoke with lecturer **Alice W. Iglehart**—a longtime Met educator and graduate of the prestigious Attingham Summer Program with a deep passion for British portraiture—about how she helped design this very personal journey. **To reserve your place**, contact the Museum Travel Alliance at Arrangements Abroad at 212-324-1893 or email [trips@museumtravelalliance.com](mailto:trips@museumtravelalliance.com).

### **How does your background shape this program?**

Attingham taught me to read an English country house like a painting. For example, we'll share a private tour of the 19th-century Rothschild family *château*, **Waddesdon Manor**, we'll see how every choice reflected their wealth and refinement, from Sèvres porcelain to some of my favorite portraits by English painters Reynolds and Gainsborough. At **Blenheim Palace**, Churchill's UNESCO-listed birthplace, we'll explore grand state rooms and Capability Brown's gardens designed to rival Versailles in scale.

### **What kind of access will travelers have?**

The access will be exceptional. At King Charles III's private **Highgrove House**, a royal horticulturist will show us how His Majesty's philosophy shaped every garden. We'll enter rooms typically closed to the public at **Sudeley Castle**, where Katherine Parr, the last wife of Henry VIII, spent her final days, and walk its gardens once used by four Tudor queens.

### **Why include Cheltenham and Bath?**

Cheltenham was a spa town that turned wellness into theater. In the 18th and 19th centuries, visitors came to "take the waters." The city's racecourse brings in my own family history—my uncle ran steeplechasers there—and the **Wilson** offers a curator-led look at hand-crafted Arts & Crafts works that pushed back against the encroaching Industrial Revolution.

Bath feels like walking through a layered script. At the **Roman Baths**, steam still rises off ancient stonework. At **No. 1 Royal Crescent**, our after-hours visit will show how Georgian design choreographed social order—from servant bells to parlor etiquette—down to the last silver spoon.
